Alva G. Harvey, mechanician with Maj. Frederick L. Martin, gave me today his complete story of the adventures of the two United States Army world flyers, when their plane, the Seattle, crashed against a mountainside north of Chignik. Sergt. Harvey described the seven-day journey of the airmen through the Alaskan wilderness to Port Moller, which he told me never could have endured had it not been for thoughts of his mother, awaiting him at Cleburne, Tex. His mother was uppermost in his mind, he said, and in the blackest moments, he thought of

NO ALTERNATIVE PLAN

On his return to the Capitol Mr.

Longworth, acting as spokesman for the House group, predicted that the House would adopt the conference report on the immigration bill, making exclusion effective July 1 of this year, but said action on the report might be deferred a day or so beyond tomorrow. He declined to give any reason for the possible postponement. This plan later apparently was abandoned.

It was understood that the discussion on immigration at the White House was general and those present insisted that no definite alternative to the exclusion provision agreed to by House and Senate conferees was proposed. Mr. Longworth said he knew of none that would be offered when the report comes up for House approval. Republican insurgents in the House at a conference today decided to make a stand against several provisions of the immigration bill as approved by the conferees, but took no exception to the Japanese exclusion section. The insurgents object to the Senate provision which would place immigration quotas on a race-origin basia after 1926, and to certain provisions which they declare would nullify a section of the La Follette Seamen's Act with regard to landing of alien seamen at American ports.

"We left Chignik at about 11 o'clock of the morning of April 30. Weather reports were fairly good. After an hour's flight to the west the fog seemed to drop around us cutting off all vision of earth and water, and making it impossible of the morning of April 30. Chief's Say House

"I am never so happy as when I come to this city," he said to reporters and photographers who gathered in his car. "Even today, despite my unfortunate condition. I am glad to be here, where I got my start and passed so many happy years of my life. My only restret is that I can't get out and take a stroll. My legs won't stand it."

Tears came to his eyes and his voice became vibrant with emotion. Then instantly he was sanguine again and reminisced gleefully of the days when he played baseball in Chicago, and when, after his conversion, he took whole-hearted joy in his evangelical work.

"Yes," interposed his wife, who, also stricken with iliness, sat opposite him in the compartment, "and I never saw a man who strove harder or more steadily in the Lord's cause than my husband. I should be sorry if he had to give up his work."

"Don't worry, dear," remarked the evangelist calmly. "The Lord

Adventurous Career of South China Leader is Ended

ENGINEERED PROM AFAR
In dealing with the career of Sun Yat Sen, it is essential to note that practically all of his best work in the overthrow of the Manchu empsyors and the various revolutions which followed was done when he was thousands of miles from the shores of China.

There are few parts of the world to which he was a stranger. Wherever there were Chinese he had been, always with the same mission, the same appeal—a Chinese republic. A small, quiet, stoopshouldered man, with thin, grayish mustache pointing upward at the ends. Dr. Sun moved about the world holding his life in his hands every moment of the day and night, for it would have been worth \$200,000 to any one who could plant a knife between his shoulders. This reward, offered originally by the Japanese Foreign Office, which termed such a step as "undignified" and asserted it is not even being seriously considered.

Transportation Act Assailed in Lower Branch

Californian Says Freight Charges Not High

WASHINGTON, May 14—
Transportation rate questions came to the front today at both ends of the Capitol. The Senate devoted its entire session to debating the proposed modification of the long-and-short haul section of the Interstate Commerce Act, while in the House the rate-making section of the Transportation Act came under attack.
Continued discussion in the Senate for the second day of the proposal to attach the Gooding long-and-short haul bill to the pending Army appropriation measure as a "rider" hought an open charge

In the House Representative Shallenberger, Democrat, Nebraska, continued his efforts to obtain signatures to his petition seeking discharge of the Commerce Committee from further consideration of the Huddleston bill which would repeal the rate-making section of the Transportation Act, asserting its passage would result in height charges being reduced 11,000,000,000 a year. Tonight he ad obtained twenty-seven signatures of the 150 required to make he petition effective.

Representative Lea, Democrat, alifornia, opposing discharge of he committee, contended freight tas were relatively lower than unteral commodity prices when mpared with prewar levels and presentative Hech, Republican, mass, said the rate-making secnal and been "grossly misrepreted" by those seeking its elimitical.

Senator Pittman, Democrat, Nevada, led the transportation blocon the floor of the Senate in the first for the Gooding proposal, which would medify the long-and-short haul clause, especially in restricting exceptions which may be made, notably in the matter of railroads meeting water competition.

Senator Gooding asserted the policy of the railroads in their violations of the long-and-short haul clause had prevented the development of Western States and was un-American." His views were indered by Senators Oddie, Republican, Nevada, and Dill, Democrat, Washington.

Senator Brookhart, Republican, Iowa, declared freight charges could be reduced \$1,000,000 an charges on "water capitalization," \$200,000 on was added annually as unsarined increment" and \$300,-000,000 or represented as annual charges on stocks and bends "in the cost of operation and supplied that the immigration bill significant in the cost of operation, by eliminating \$400.000,000 in charges on "water capitalization," \$200,-000 and the church at its quarretry meeting.

More Than 20,000 Attend California University's Commencement

versity of California was held in Memorial Stadum on the university campus today before a throng estimated at more than 20,000. Diplomas numbering 2155 were handed the graduates after impressive ceremonies participated in by Gov. Richardson and Gen. Charles G. Morton, commanding the Ninth Corps Army area.

The university medalist was Joseph Olney Halford, Vallele, a student in the college of chemistry. Honorary degrees of Doctor of Lawwers conferred on Henry E. Huntington, San Gabriel, railroad magnate, and Dr. George Henry Falkiner Nuttail of Cambridge University, noted biologist.

The number of graduates was approximately 150 less than last year, owing to an extension of the curriculum in the Southern Branch of the university.

President W. W. Campbell of the university had planned to present each of the diplomas and its accompanying degree personally, but the day proved such a warm one that he changed the plan. Three spectators fainted before the ceremonies were concluded.

SWITCHMEN DISCUSS CONSTITUTION CHANGE

DENVER, May 14.—Discussion of proposed amendments to the constitution and acceptance of the report of M. R. Welch, treasurer of the union, occupied all sessions today of delegates to the triennial convention of the Switchmen's Union of North America, which opened here Monday. Although there is considerable discussion among the delegates as to the question of seeking a wage increase for switchmen, no formal resolution has been presented to the convention. The report of Treasurer Welch showed a balance of \$355,780 the first of the year, a gain of more than \$200,000 over the preceding three-year period. efinite was decided today as to rhether the Harry Wills-Bartley fadden fight will be held at the Madden fight will be held at the Queensboro stadium in Long Island City Friday night, but the officials of that organization expressed themselves as being very hopeful. They declared it all depends upon what Chief Kenton of the New York City Fire Department has to say tomorrow when he returns from Atlantic City, where he has been attending a convention.

It was rumored tonight that the facts had been laid before Chief Kenton in Atlantic City and that he would be prepared to inspect the bowl tomorrow morning. It was also reported that if tomorrow's investigation supports the facts communicated to the chief in Atlantic City the new arena will receive the immediate approval of the fire department and the Boxing Commission will sanction Friday night's fight.

Frank Shellenback Chucks for Bengals

SALT LAKE, May 16.—Duffy Lewis's Salt Lake Bees made it two straight over Vernon by de-feating the Tigers, 18 to 8, here today. An eleven-run rally in the eighth inning cinehed the tilt for

Frank Shellenback pitched the entire game for the visitors and the locals nicked him for a grand total of twenty-four hits. Hulvey started for Salt Lake, but was relieved by Mulcahy in the sixth when the visitors scored four runs and tied the count 6 all. Mulcahy bianked the Bengals until the ninth when he eased up and allowed them two runs.

Every player on the Bee team scored at least one run, while "Jumbo" Peters crossed the plate no less than four times. Howard Lindimore continued his heavy hitting by rapping a home run, a double and a single in five trips to the plate. Charley Deal and Jim Blakesley hit hard for the Bengals, the former getting four bingles and the latter three.

Balt Lake started out strongly and ran up a four-run lead in the early frames, but the Tigers put over four runs in the sixth and evened the count. Then in the seventh the locals broke the tie by getting a couple, and took advantage of three Vernon errors and numerous hits to score eleven more in the eighth. Score:

did all he was expected to and
a little more. He placed first in
the century and 220-yard dash in

The baseball team has met with
indifferent success. Although they
won several practive tilts they

Rough Rider tennis so far has
not developed into extra high

Piloting his party was Jack Curley, his American representative, and it was Jack's fault that the reception committee which was to function tomorrow with a brass band and everything, was double-crossed.

ADVOIDS LEGAL TANGLE

Curley was still laughing over the discomfiture of Billy Gibson and his process servers, whom they cluded in New York. Gibson has Carpegtier dated up fer a June fight and does not want him to have a previous battle. So he, with his lawyers, met the Carpentier party at the New York docks, but Carpentier was tired. Would they not postpone the conference until 3 o'clock in the atternoon? The gracious Gibson consented to the postponement.

"That is a good arrangement," and the solemn faced Curley. Whereupon he took taxicabs to the Pennsylvania station and jumped the limited for Chicago and passed up the Gibson date.

GENTLEMEN:

One thing we've accomplished in a Shaving Cream is abundant lather. But there are four other ways we excel.

Note these five ways. If they mean anything to you, learn if our claims are true. When we have worked so hard to please you, you can surely ask us for a test.

The final Shaving Cream

hets about it:
It is made in a laboratory which has spent 60 years in soap study. It is made
by men whose creations are world-famous.
Some of the great soaps for every purpose have been developed here. One
of them—Palmolive Soap—is the leading toilet soap of the world.

We decided to attain the same supremacy in a Shaving Cream. So we asked 000 average men to tell us what they most desired.

Most of them agreed on five requirements. Then we set out to excel all thers on those points.

We worked 18 months. We made up and tested 130 separate formulas. The nal result was a Shaving Cream which, in all the history of soap making, had or been approached.

Hunt Won't Admit He is Out to Retain Position

Others Refuse to Announce Candidacy for Job

PHOENIX, May 14.—The Dem-eratio gubernatorial situation in trisons shows signs of coyness on the part of all who have been mentioned for the high effice. Even Gov. Hunt declines to admit that he is an active candidate. Mul-ford Winsor, who, on account of the Colorado River compact, was dered his most formidable considered his most formidable opponent in the primaries has dropped out of the race. Amos A. Betts, State Corporation Commissioner, has just gone East without ralleving the suspense in regard to his candidacy.

From several Democratic sources

rrom several Democratic sources intimation has come that Betts left behind him a letter which is to be published when the time is due psychologically. There is a suspicion that this letter will be a declination, possibly in pursuance of some gentlemen's agreement made with Winsor. Efforts have been made from time to time to obtain the candidacy of Judge R. C. Stanford of this city.

are held, record-breaking crowds are expected.

Within the past few days there have been whispers that E. W. Samuell, former director of the State Highway Department, and secretary of the board of directors of State institutions, will announce his candidacy for the Democratic nomination for Governor. Mr. Samuell is said to have broken with Gov. Hunt, for whom he had been campaign manager and with whom for years he had maintained the closest relations. While Gov. Hunt has insisted that Samuell resigned of his own free will, and that he was an officer against whom nothing could be said, intimation is given at the Capitol that an influential element of the Democratic party was in consultation with the Governor before the date of the resignation.

DEPARTMENT UPSET With the exception of his asso-diation with Hunt, Mr. Samuell has not had any large part in Arisona nolities not had any large part in Arizona politica.

The State Highway Department is in something of a dismembered condition. It has lost its director, this after the Governor had requested the resignation of State Engineer Frank R. Goodman. It has been placed in charge of C. M. Zander, a member of Gov. Hunt's personal cabinet. There also has been a change in the office of Assistant State Engineer and now has come announcement of the resignation of Sam Jones, who, since January, 1923, has been chief clerk of the department. Under appointment of Mr. Zander, Jones has been succeeded by Vaughn

of Grape-Nuts are the precious carbo-hydrates — your greatest source of strength and vitality.

"A food may contain a comparatively a compound, and yet large amount of a compound, and yet, on account of its low digestibility, fail to supply much of it to the body in an available form. Hence it is that the value of a food is dependent not alone on its composition.

In Grape-Nuts the carbohydrates have been dextrinized, that is, they have been scientifically broken down into

-Tooth, Diet and Health

Grape-Nuts is in a form which you must chew. This gives the teeth healthful exercise and starts the flow of the salivary and gastric juices—the first step to sound digestion.

You can overeat and still actually starve.

You can do worse. With food you can breed in your body the poisons and acids that bring about almost every physical ill.

But there is another side. With food you can build yourself a healthy body, and supply it with all the power it needs for mental and physical work.

Three times a day-you make the choice.

The power that daily renews your mental and physical strength and vigor is stored in the carbohydrates (a great part of which comes from the grains). They are your greatest source of vitality. At least one-third of your nourishment should come from them.

MORE than three-fourths of the content of Grape-Nuts (made from wheat and malted barley) are these precious carbohy-drates. And in Grape-Nuts you get the carbohydrates in the form the body can digest and transform into strength and vigor.

In the form your body can digest-dextrinized!

In order for your body to get the full nourishment from carbohy-drates—they must be carefully prepared to suit your body's needs. Otherwise, instead of supplying you with nourishment they may clog your digestive machinery and produce the poisons and acids that give rise to almost every physical ill.

In Grape-Nuts they have been scientifically broken down into just the form your body best can utilize. They have been dextrinised.

No chance of choking or clogging your delicate digestive machinery. No chance of producing dangerous poisons. Healthy exercise for each organ—no strain on any one. Grape-Nuts will tone you up. It will do much to keep you up to the

made in Mountain View Cemetery at Passadena. ance, with 600 beautiful girls taking part, will be held on the high
school athletic field on the 23rd
inst., it was announced today by
George M. Green, principal of the
school. Miss Gladys Keyes has
been elected by the senior girls to
reign as May queen.

Around the tail, beribboned May
pole there will be presented a
repertoire of dances, drills and difficult gymnastic feats. The event
will be featured by beautiful and
colorful costumes, including those
worn in folk dances, typifying the
native garb of the lands represented. The Inglewood Union High
School orchestra, led by A. F.
Monroe, will provide the music.
This will be the first May Day that
the girls will appear in the middy
uniform adopted by the school last
winter. TREE DESTRUCTION

BURBANK, May 14.—The mass
meeting called for Thursday night
by the Business and Professional Tomen's Club for the purpose o Wemen's Club for the purpose of giving voice to protests against further destruction of Burbank's glory, the ancient shade trees, promises to develop into ah interesting affair. Among deciduous shade trees sought to be saved are the historical sycamores estimated to have been planted 200 years ago by the padres. Peppers and eucalypt, so old that all record of their planting has been forgotten, are among the landmarks that would be saved from the ax of the street paver. WHITTIER, May 14.—The an nual exhibition of the Whittier High School is to be tomorrow evening. The new buildings will be open for inspection. This group consists of the handsome new ad-ministration building with fitteen classrooms, department of domes-tic ecience, home economics, and a special suite of rooms for Latin, automobile mechanics, wood-worka special suite of rooms for Latin, automobile mechanics, wood-working and physical education. These rooms are to be filled with an interesting display of the work accomplished by the students in every department. A special program will be given, to include music, demonstrations in physical education, home work, shop work and an exhibition of the work undertaken during the regular school year. secretary-manager of the local assection.

The Smal payment on the cults averaged 13 cents a pound which is an increase of approximately cents over the amount received last year. The marketing of the cults at this date in the year is also an unusual feature, since the last payment on the crop was not expected until December. That walnut grewers will receive a good price for their crop this year was indicated by the report that for the first time in nine years the steek of imported walnuts would be exhausted by the time the demostic crop is harvested. The market is usually burdened with large shipments of foreign nuts, which not only delays the sale of the local crop but also decreases the price received by the growers.

It was stated that only half the amount of cults usually handled by the State associations were placed on the market this year, indicating the marked improvement of the crop.

Our Idea of Dental Ethics

Presenting the Principles and Practices of the E. R. Parker System

ECOGNIZING that dentistry is one of the most vital factors of human welfare, we

believe that any true standard of ethics must begin by making dental service possible to rich and poor alike.

We therefore direct the activities of the E.R. Parker System to this end, remembering always however, that ethics also demand the highest standard of quality regardless of lowered costs. These together with extending our every effort to the development of preventative dentistry present our idea of ethics.

That these principles are sound in practice is demonstrated in the fact that more than 150,000 patients were treated last year in Parker offices. These offices are now found in twenty-six cities of the West and were made possible by the adoption of modern business methods and economies to the practice of dentistry.

The service that they render is of the highest order and provides for painless and thorough treatment at the lowest cost consistent with first class workmanship.

MARKET REVIEW

| Comparison | C

SINCE coming to Los Angeles twenty-five years ago, I have created four successful money-making enterprises, including the City Dye Works and Laundry Co., Inc., the largest plant of its kind in the West. I have money enough to enable me to quit work and take life easy if I want to. But I don't. Los Angelee has done well by me. And now I am doing my bit to-wards making this wonderful city the industrial capital it is

YOU TOO CAN PROFIT!

... If you are grappling with the problem of investing savings or surplus income, follow my lead and consider the tremendous future of the textile industry on the Pacific Coast. . . .

... Until a few years ago, local knitters—the makers of all sorts of woolen goods—were hopelessly handicapped in their fight for trade. They were forced to order dyed yarns in the East many months ahead of requirements. They were compelled to guess the color demands of their customers. They were unable to foresee sudden changes in color fashions and were therefore often caught with heavy stocks of dyed yarns rendered completely unsaleable in the face of keen competition from Eastern knitters...

... And then in 1917 I started the Jenkins-Wright Co., Inc., the only yarn dyeing, bleaching and coning establishment in the West. This business met an economic need. Knitters no longer gamble on color requirements months ahead of the market. They place their orders with us a few days ahead of actual knitting demands. We bring the yarn to Los Angeles "in oil" and dye it here to suit the current demands of the trade. ...

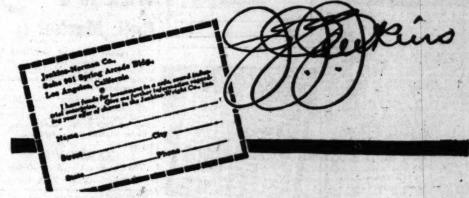

WONDERFUL OPPORTUNITY

crease of 903% since the first year of operation—an annual increase of almost 50%. Splendid profits have been earned from

. In order to erect and equip a plant large enough to take care of the ever increasing flow of orders, I recently decided to go to the public with a limited offering of stock. Before doing so, I told my personal friends of the opportunity. And they, prominent bankers and business men, instantly bought and paid for a third of the cotal issue. . . .

... I sincerely do believe that the remaining shares constitute an ideal investment, embodying the very highest degree of safety, coupled with the assurance of growing annual profits. The future growth of the Jenkins-Wright Co., Inc., along with the textile industry as a whole, is absolutely assured. I stake my business reputation on that. . . .

... Shrewd investors will be quick to take advantage of such a remarkable opportunity. You can learn the facts without obligating yourself in any way whatever. If you cannot come to my office, fill in and mail the coupon. But act now....

BUTTER UNCHANGED

The butter market is unchanged in tone and prices. All attempts of buyers to break a 40-cent rate for fresh extras have been futile. Call sales were all at that figure and trade in stores was sufficient to clean up the best offerings.

The egg market is steady to firm on all grades at unchanged prices. Trade so far this week has been uniformly goed and the best offerings of regular and storage-packed have been easily placed.

On the clearinghouse call buyers and sellers were too far apart in bids and offers to find a trading basis. Bids of 30 cents were made for December options.

COPPER BREARS

The continued decline in London has caused a further break in the copper market here, the price dropping to 13 1-8 cents for electrolytic delivered and there were rumors of sales at 13 cents. London cables the list there was declining 5s with standard spot closing at £61 12s £62; futures, £62 10s; electrolytic spot £67 15s and futures £68 5s.

The lead market is still quotable at from 7 3-5 cents to 7.40 cents New York and from 7.10 to 7.25 St. Louis. The leading interest continues to quote 7.50 cents New York. Futures are obtainable at somewhat lower prices. There was a rally in London, spot advancing 2s £6 to £23 7s £6 and futures \$5 to £23 7s £6.

Zinc was again quoted at 5.55 cents for May and 5.90 cents a pound St. Louis for June. In London spot was firm and unchanged at £31 5s, but futures declined 2s £6 to £31 10s.

The London tin market was quiet. Spot Straits here closed at £5 7-8 cents; July 45 % cents; later months at £4 1-4 cents a pound. London cables standard spot as advancing 5s to £325 5s;

The men, Julius E. Anderson and Louis Poleterat, were shipped to Galveston in a prison car and will be given the choice of signing out as seamen one way or being deported to Europe.

The two were placed in frons aboard the El Cedro when they were discovered by Capt. W. R. Brust steering the ship directly toward the rocks. Capt. Brust proposed with them, grasped the wheel and swung the ship about just in time to avoid a crash. Others of the crew went to the captain's assistance and overpowered the pair.

C. G. Gatley, immigration inspector in charges here, headed the board of inquiry whose decision was affirmed by Washington, Ioliowing an appeal by the men.

It was pointed out today by supporters of Miss Gunsul that had Williams won the largest number of votes Miss Gunsul would have continued in office because it was revealed late yesterday that Williams was unqualified by the City Charter to become an elective city official, he having moved from one district to another after registering, thereby disqualifying himself from voting, it is asserted.

Police Judge Fred E. Heiwig, who was opposed by John B. Holly and Charles E. White for a return to the Police Court bench defeated his opponents by a large majority, Helwig's vote was 14,684. Holly polled 5477 votes and White polled 1535 votes.

"Bummer reservations have increased each year for several seasons." said Mr. Frank, "and there is no reason to believe they will fall behind this year. The people in the rest of the country are finding out that we have a summer climate here superior to any other part of the United States, and they are taking advantage of it in increasing numbers every year. On my trip east some months age I occasionally ran into persons who reasoned that because our winters are mild our summers must necessarily be but. But thanks to the advartising of the All-Year Club and the testimony of the thousands of summer visitors in former years, this deluxion is being rapidly dispelled.

"I would like to see the railreads out down their running time during the present season. This would greatly increase travel to California. FINE REBATE ASKED

The sad story of how George Wellington, a drug-store clerk, paid \$300 to the city in the form of a fine for violation of the dry laws when the city was not entitled to the money was told to the City Council yesterday in a letter received from Attorney H. L. Bradford, the clerk's attorney. The letter sets forth that the infraction of the law occurred outside the city and that Police Judge Crawford, therefore, had no right to fine Wellington. The Council agreed with Attorney Bradford that the case was a sad one and agreed with Judge Crawford that the city needed the money so the letter was referred to the City Attorney and the Finance Committee.

HOME FURNISHING and DECORATING

STONE LINED REFRIGERATOR Stays cold on the Hottest Days

The first signal of summer is on us. Now is the time to think of your home "cold storage." The NOTASEME Refrigerator is lined with stone composition of one-half inch thickness. This stone lining has rounded corners. No dirt can ever remain in a NOTASEME. Its snow white cool interior helps foods retain their flavors. It eliminates all tinny tastes and unpleasant odors.

THE LASTING COOLNESS

Stone when once chilled retains the cold for a great number of hours—this benefits in two ways, first—in case you should forget to order ice and run out there would be no dan-ger of foods spoiling within a reasonable length of time. Next, when chilled the stone itself keeps the temperature of your refrig-Itself keeps the temperature of your refrig-erator low thus saving ice where it has been wasted before. Some of our users say the NOTASEME has cut their ice bills in half.

Buy your NOTASEME now and let it pay for itself this summer.

Mushet Offers Council Resolution to Wipe Out Unfair Scheming

The activities of solicitors for val ornamental lighting post comproperty owners are to be curbed and regulated by the City Council, as a result of a resolution introduced at yesterday's Council session by Councilman Mushet. The Council has had a number of rows to settle as the result of rival petitions being presented for different kinds of posts on the same ent kinds of posts on the same streets, and is anxious to prevent these controversies in the future. Councilman Mushet's resolution, which was referred to the City At-torney to outline a method by which the Council can wipe out un-fair solicitation by representatives of lighting-post companies, was as follows:

or lighting-post companies, was as follows:

Whereas certain rival concerns engaged in the manufacture of ornamental lighting posts have heretofore engaged the services of solicitors and agents to procure signatures, for protests, of certain property holders on certain streets where posts of the character mentioned herein were to be placed by one of these rival concerns, and Whereas these protests are made at the request of these rival concerns, and their agents have obtained, through misrepresentation and fraud, signatures of property holders on streets after a rival concern had previously obtained the legal frontage to place thereon its ornamental lighting posts, and

POLICE HUNT FOR

MISSING WOMAN

NO TRACE OF WIFE AFTER WAGES TUESDAY

Mrs. Grace Hughes, 34 years of ge, of 1820 Upperton avenue, was age, of 1826 Upperton avenue, was being sought as missing yesterday by police. Her husband reported that after preparing supper Tuesday afternoon she went to the Bank of Italy and then to the Thomas Haverty Company office at Eighth and Maple streets, where she collected his wages. After this visit trace of her was lost. She had about \$60 with her, Hughes said. She is 5 feet 5 inches tall, weighs 180 pounds, and has blue eyes and dark long hair. She wore a serge skirt, pole coat, white stockings and low shoes.

ANITA BALDWIN GIRL PLANS TO SUE KEARNS

Action for \$100,000 Damages Expected in Few Days by Film Extra Who Alleges Attack

Investigation into the woman's charges was continued yesterday by Dist.-Atty. Keyes and Chief Investigator Raymond of the District Attorney's office. A number of persons were interviewed by Mr. Keyes during the day but late in the afternoon he announced that a number of other persons remain to be questioned and that he would take no formal action until this was done.

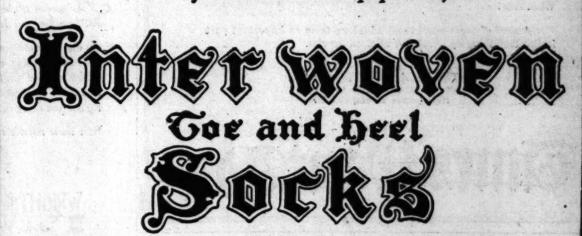

For 18 consecutive years the sale of Interwoven Socks has steadily increased year by year without a single setback, and the increase of the last year has been the greatest of all.

Interwoven is now and has been for years by far the largest manufacturer of men's hosiery in the world.

Millions of men, through years of actual wearing experience, have become convinced that Interwoven Socks do look better, fit better, wear longer and give greater satisfaction than any others they have ever worn.

The brilliant, lustrous color, fine closely-knit texture, snug ankle-fit and wonderful wear-resisting toe and heel of Interwoven Socks have made them famous everywhere.

You get more for your money in Interwoven than in any other make of men's hosiery you can buy—that is the secret of their world-wide popularity.

8760 hours of service each year

-- for only \$2.00

D ID you ever figure your watch cost by the year as you would a suit of clothes?

You pay more than \$40 for a suit of clothes, and it gives you some fifteen hours of service each day for about a year. A year of shoe service costs you at least half of that.

But this watch will give you 8760 hours of service each year for only \$2.00.

An investment of \$40 now covers twenty years or so of faithful timekeeping service. When you consider how absolutely essential this service is, doesn't the cost \$2.00 a year seem ridiculously low?

No matter what you intend to pay, figure your cost by the year. We have an unusually fine assortment of high grade watches at various prices, from which you may choose the one that best suits your taste and purse.

Friday he intended to file a metion with the court that Mrs. Willis be released on ball of \$10,000 because of her asserted precarious physical condition.

It was stated by Dist.-Atty. Keyes that the motion would be resisted on the ground that Mrs. Willis's condition is not as serious as asserted. Mr. Hahn said he will file with the court an affidavit by Dr. E. A. Sawyer to the effect that Mrs. Willis is suffering from valvular lesions of the heart and that her confinement in the County Jail will endanger her health. He also will call on Dr. Victor E. W. Parkin, county alignist, and Dr. W. H. Blank, General Hospital physician, to testify regarding the physical condition of the woman. The case is set for trial Monday.

Story by Robert W. Chambers

A STAR SPANGLED CLASSIC OF LOVE AND THRILL

At the seven stores of the Platt Music Co. you will still find a few good seats left for the premiere to-night and a practically unbroken assortment still awaiting you for the sortment still awaiting you for the regular performances, twice daily, beginning tomorrow afternoon, May 16. Admission for the opening will be \$5 plus tax, and for other nights 75c, \$1 and \$1.50: matinees, 50c, 75c and \$1 (except Saturday and Sunday.) plus tax.

In his newest and greatest masterpiece Mr. Griffith has woven a gentle and absorbing love story into a background of the Revolution's strife and sacrifice. Heart throbs and spectacle are deftly and absorbingly interlocked.

In the steady rise to its climax the story is made human and sane and compelling and given vigor and dash by the most vitally realistic battle pictures which Mr. Griffith or anyone else ever has made. Softly melting photography and other touches so characteristic of the Griffith artistry lend charm and naturalness to the whole. ness to the whole.

New York, Chicago, Boston and Washington are ablaze with enthusiasm over "AMERICA" and it is dwarfing all records of the Griffith and other earlier classics with decisiveness unknown since the triumphs of "THE SIRTH OF A NATION."

SUBMITS CASE

outhland Rate Hearing is Moved to Bay City

Arizonan Appears in Favor

and intersite Commerce and intersite on lumber from Los Angeles Harbor that will compare favorably with rates from other producing points, submitted its case yesterday at the final hearing in Los Angeles. The proceedings were adjourned to San Francisco, where the railroads will introduce their defense today.

At yesterday's hearing F. A. Jones of Phoenix, appearing as a representative of the lumber and mining interests of Arizona, told the commissions that the proposed lower freight rates would greatly benefit Arizona lumber consumers. At least 75 per cent of lumber now used in Arizona, he mid, is purchased from neighboring States, and that practically all this lumber is secured from mills located at Los Angeles Harbor.

WOULD CUT RATES IN HALF
The Los Angeles Lumber Products Company has proposed a new
rate on shipments of lumber from
the local port that will about cut
in half the existing charges. At
present the rates on 1000 feet of
cut lumber ready to be made into
boxes in fifty-carlead lots is \$8.30.
The proposed rate is \$4.56.
Under the present schedule, the
lumber company declared at the
hearing that they are unable to
compete with northern manufacturers beyond a fifty-mile radius of
the harbor. Even in Imperial Valley, the local concern asserted, it
was upable to sell its product because of the advantage northern
operators are alleged to have.

tenses in a complaint issued yes terday by Dep. Dist.-Atty, Burke. The complainant is Mrs. Grace E. Low, 271 South New Hampshire street, who charged misrepresentation in connection with the sale by Mrs. Seward of the lease and furniture of the Engstrum Apartments, 623 West Fifth street.

According to the complaint, Mrs. Seward represented to Mrs. Dow that the average monthly rental of the apartments was \$5560, and that the rental for April ran to \$9000. This, it is charged, was an exorbitant figure. Mrs. Low said she paid \$35,000 for the lease and furniture, including a \$5000 bonus.

Mrs. Low recently bought the lease and furniture, including a \$5000 bonus.

Mrs. Low recently bought the apartment building for \$400,000, according to Dep. Dist.-Atty, Burke. Mrs. Seward had not been taken into custody late yasterday.

New Hollywood Hospital Opens

Jim Smith, 34 years of age, 415 South Burlington avenue, received spoond and third degree burns when a can of gasoline exploded in a garage at 1626 Temple street where he was employed.

Thomas Stanbaugh, 15, 1423 West Third street, was burned on the hands, arms and face while cleaning an automobile near his home. A gasoline explosion also was the cause of that fire.

A can of bensine caught fire at the Jefferson Paint Company, 116 East Jefferson street, and burned Louis J. Arnas, 35, an employee, on his arms and body. The three victims were all treated at the Receiving Hospital and later sent home.
